

Prajwal Raju Dhoke

Computer Engineering (Diploma) - 2026 Batch Pune India
+91 xxxxxxxxxx | brownxforestco@gmail.com | <https://github.com/prajwal18-rgb>

PROFESSIONAL SUMMARY

Diploma Computer Engineering graduate 89.53% with hands-on experience building AI/ML systems, deploying machine learning models to production, and developing backend APIs. Skilled in Python, YOLOv5, NLP, Flask, and Node.js. Delivered 4+ end-to-end projects spanning object detection, sentiment analysis, and mobile app development. Seeking a paid junior role in AI/ML, software development.

TECHNICAL SKILLS

- **AI & Machine Learning:** Object Detection (YOLOv5), NLP, Sentiment Analysis.
- **Libraries & Frameworks:** Scikit-Learn, OpenCV, Pandas, NumPy
- **Languages:** Python, C, C++, JavaScript, SQL, Postgresql HTML/CSS
- **Backend & AI Deployment:** FastAPI, Node.js, Express.js, RESTful APIs
- **Mobile Development:** Flutter, Dart, Firebase
- **Tools & Environments:** PyCharm, Google Colab, Jupyter Notebooks, Git, GitHub, Postman

EXPERIENCE

AI/ML Intern:- Persevox

2026

- Built and deployed a Twitter Sentiment Analyzer using NLP (Scikit-learn, Pandas) to classify tweets as positive, negative, or neutral.
- Used the NLP model as the foundation for the End-to-End ML Capstone deployment project, integrating it with a Flask REST API for live production use.

PROJECTS

SafeCityAI - Helmet Detection System

- Achieved 81.4% mAP@0.5 accuracy detecting helmet violations in real-time traffic footage using a custom-trained YOLOv5 object detection model, deployed as a full production-ready system with a REST API and interactive web dashboard.
- Built for smart city traffic enforcement to automate CCTV monitoring and reduce manual review effort.

End-to-End AI Model Deployment - Capstone

- Transformed a locally trained ML model into a live production system with REST API integration; users send data via URL and receive real-time predictions with sub-second response time.
- Demonstrates full ML lifecycle: training → packaging → deployment → API consumption.

Twitter Sentiment Analyzer

- Built an NLP classification model to categorize tweets as positive, negative, or neutral using supervised learning techniques.
- Deployed via Fast API at Persevox internship as part of the Capstone project pipeline.

DocKeys - Government Schemes App (Final Year Project)

- Built a cross-platform mobile app that notifies users of newly launched government schemes and bank scholarships filtered by their profile in real-time.
- Implemented Firebase backend for real-time data sync and user-profile-based eligibility filtering.

EDUCATION

JSPM's Rajarshi Shahu College of Engineering, Tathawade, Pune

2023 - 2026

Diploma in Computer Engineering | 89.53%

Acharya Shri Anand Rushiji English Medium School

2022 - 2023

10th Standard | 85.40%

EXTRACURRICULARS & LEADERSHIP

- **TPC (Training and Placement Coordinator)**
- **Event Management Co-Ordinator (Cultural Fest)**

LANGUAGES

- English (Advance)
- Hindi (Fluent)
- Marathi (Fluent)
- Japanese (Beginner)
